

BRAINERD DAILY DISPATCH

Volume 9, No. 33

BRAINERD, MINN., MONDAY, JULY 12, 1909

Price Two Cents

\$12.50 For \$25.00, \$30.00, \$35.00 and \$37.50 Tailored Suits

TIME IS UP—the last call is made—the spring season was not as favorable as we had anticipated and we have more suits than we should have. None of these will be shown to you next fall—they must go NOW.

EVERY SUIT is a spring and summer of 1909 style. The colorings are the very best—the shades that you will want this fall. The sizes are the best too, 16 and 18 years and 34 to 40.

THE CLOTHS are all good—cloths that you can wear this fall and, by the way, the styles will not change a great deal this fall.

WHY NOT BE FIRST—someone, why not you, get the first choice of this lot Tuesday morning? We must confess there are more for you to select from than we wish there were but they will go as advertised. They are the "MICHAEL'S" quality—that means the best.

\$9.95 For Our \$17.50, \$19.00, \$20.00 and \$22.50 Women's Fine Tailored Suits

Less than \$10.00 for a tailored suit that will serve you as a fall suit as well as through the summer. Going on a trip? Can you get anything at the price to equal this for a traveling suit? There are sizes in this lot that will make excellent suits for the high school girl and you can't make anything like them for the price. Every suit is beautifully tailored, of splendid material and the best of colorings. Don't wait—these will go like the proverbial hot cakes.

About Terms Of course you would not expect us to lay a suit aside at this price but if there are those who could not purchase until the 20th will lay aside any \$12.50 suit if \$3.50 is deposited and any \$9.95 suit if \$3.00 is deposited, until that date.

MacPherson & Langford

H. F. MICHAEL COMPANY

FOUR KILLED BY CYCLONE

Several Others Are Injured at
Ortonville, Minn.

PROPERTY LOSS VERY HEAVY

Damage From Storm Will Reach One Hundred and Fifty Thousand Dollars—Those Who Met Death Are an Old Settler and Three Italians—Albert Harmon, His Wife and Nineteen Italians Hurt.

Ortonville, Minn., July 12.—A ninety-mile cyclone, with such central energy that it sucked water high up out of Big Stone lake, hurled itself fiercely across that body of water from the northwest, venting its destructive forces among the railroad yards in the eastern part of the town, leaving behind four known dead and twenty-one seriously injured. The dead are:

John De Griff, an old settler, living along the shores of Big Stone lake, caught beneath ruins.

Three Italians, names unknown, buried and mangled beneath railroad cars and debris of the St. Paul road's roundhouse.

The injured are: Albert Harmon, employed at the farm of W. E. Chamberlin, buried beneath the debris of the farmhouse.

Mrs. Harmon, both limbs broken and probably fatal contusions about the chest.

Nineteen Italian railroad laborers, many with broken arms and legs, some of whom may die, buried in the ruins of the railroad buildings.

Many other persons throughout the city and country received minor injuries.

The property loss will reach \$150,000, partly confined to damage to rail-

road and commercial property, private losses aggregating about \$75,000.

The Chicago, Milwaukee and St. Paul depot, roundhouse, the coal supply building, the warehouses and the other warehouses which crowd that section of the city caught the full brunt of the cyclone and crashed with frightful detonations before the blast, their splintered lumber rising in a cloud through the gyrating atmosphere. Cottages along the lake were completely demolished and residences in this city and Big Stone, S. D., were blown from their foundations. The farmhouse and large farm buildings of William E. Chamberlin near the city are a total wreck.

The city was completely isolated from the surrounding country by the wreck of telephone and telegraph lines and only two or three wires have been repaired to give this city connection with the outer world.

Reports, however, coming into this city indicate that the cyclone visited its most terrific force upon the eastern part of this city and no fatalities or serious injuries are expected from the surrounding country.

SEVERE STORM AT PANAMA

Hurricane Does Much Damage to Property.

Panama, July 12.—A hurricane of unusual severity occurred here, doing much damage to property. The electric plant in Panama was put out of commission and the city was left in darkness, which served to increase the alarm. At the time there was a great crowd at the National theater at which Maria Guerrero, the noted Spanish actress, was performing. The performance came to an end, but the audience remained comparatively quiet.

Many of the residents, who were unaccustomed to such violent storms, left their homes, seeking safety within the churches, doors of which were thrown open to shelter the crowds.

Telegraphic communication has been interrupted and advices are meager as to the damage wrought throughout the Isthmus. It is feared that the interior and coast towns have suffered considerably. The government has dispatched two steamers to make an inspection of the coast.

LA PAZ IN THE HANDS OF MOB

Serious Riots Occur in Capital of Bolivia.

ATTACKS MADE ON LEGATIONS

Argentine Minister and His Wife Have Narrow Escape From Injury—Seek Shelter in the Home of the Bolivian President—Situation for Foreigners Said to Be Extremely Serious.

La Paz, Bolivia, July 12.—The guards protecting the Peruvian and Argentine legations were suddenly withdrawn for some unknown reason. When this became known street mobs renewed their attacks on the legations, causing serious damage.

The Argentine minister, Senor Fonseca, and his wife had a narrow escape from injury. They made their way out of the legation and ran a distance of eight blocks, finally seeking protection in the home of the president of Bolivia.

No explanation has been made as to why the strict measures ordered by the authorities at the first sign of trouble have not been enforced. Manifestations have been numerous in public places, and at a meeting held Saturday, a portrait of Figueroa Alcorta, president of Argentina, was placed head downward on a pole and stoned to pieces.

It is reported here that considerable excitement prevails at Lima and Buenos Ayres and the Argentine government's silence in the face of Bolivian protests is regarded as ominous.

La Paz is given over to riot. The people swarmed into the streets and did much damage. The electric light wires were cut and pillaging was begun on all sides. Shots were heard in every direction. The situation for foreigners, especially Peruvian and Argentine residents, is extremely serious.

NEGRO PORTER USES A GUN

Shoots Two Men on a Great Northern Train.

Wayzata, Minn., July 12.—Following an affray over a beer bottle opener on a Great Northern coast train, Thomas O. Rogers of St. Paul, negro porter on the car, drew a 38-caliber revolver from his pocket and shot

William Ganzer, a travelling man for an Owatonna (Minn.) nursery, in the head, a second bullet missing Ganzer and inflicting a severe scalp wound on Henry McGill, eighty-four years old, of Morlett, Mich.

He—I would kiss you if we were not in a canoe.

She—Sir! I wish to be taken ashore instantly.—Judge.

Art of Throwing Kisses.

"Young men of this country do not know how to throw a kiss gracefully," said a college professor. "It takes a young Mexican to perform the act gracefully."

"He brings the tips of his fingers together, touches them gently with his lips and, spreading his hand out as he makes the throw, wafts five sweet kisses to his ladylove by five different routes."—Chicago Tribune.

James Alderman, T. Wellington Beare, Neil Brooks, Kenneth Ribbel and Will Barker returned today from Hubert where they were guests at a house party given by "the smart set."

Losey & Dean are making extensive improvements in their morgue. They have put in a cement walk and platform, repapered and repainted the interior, installed new electric lights, etc.

D. M. Clark & Co. the oldest installment house in the city. Goods sold on easy terms. 251tf

F. E. and Charles Kinney, of Neutral, were in the city today on their way home from a visit to their old home at Redwood Falls, where they took in the Chautauqua for a couple of weeks.

A. A. Pierce, of Kansas City, Kan., has opened an agency for the Prudential Life Insurance company, in the Wise block. Mr. Pierce is house hunting today and will locate here with his family.

Buy a lot in Deerwood on the installment plan. For terms see J. H. Krekelberg, Citizens Bank Building. 22tf

The Dispatch is under obligations to County Superintendent J. A. Wilson for copies of the Minnesota Blue Book for 1909 and of the Biennial report of the superintendent of public instruction.

Mrs. R. Graham, of Deerwood, died at a local hospital last night after an illness of about two weeks. She leaves a husband and one small child. The remains will be taken to Aitkin for interment tomorrow.

The home of John Hagan, in the town of Long Lake, is under quarantine for diphtheria. This family is peculiarly unfortunate in this regard, having been quarantined about six weeks last spring with scarlet fever.

Weeks repairs lawnmowers. 307 6th St.

Miss Nettie Hetting arrived from Minneapolis Saturday night and went to International Falls for a brief visit with her father, after which she will return to Brainerd and visit her sister, Mrs. C. A. Coppersmith and her brother, Elmer Hetting.

Mr. and Mrs. H. H. Hitch are the proud parents of a 12-pound boy which came Saturday night to gladden their home. Mother and child are both doing well. The father was prostrated with joy but is now able to be around and attend to business.

We are having a Clean-up Sale. All fancy \$35.00 suitings in stock will be sold for \$25.00. Come in and see what we have. L. S. Zakariasen, The Tailor, 704 Laurel St. 331tp

Laura Bell Van Sickle, wife of J. H. Van Sickle, died in St. Joseph's hospital Sunday, July 11. The funeral will be held from the family residence, 1219 South 8th street, Tuesday at 3 p. m., conducted by Rev. Charles Fox Davis. The deceased was 27 years of age and leaves a husband and two children.

D. M. Clark & Co. have a new method of putting rubber tires on go-carts. 251tf

Dean Wilson, who is an apprentice electrician at the Northern Pacific shops, will leave tonight for the west and will take in the Alaska-Yukon exposition and will visit several of the big electric plants out west. He will also register at Kalispel, Couer d'Alene and Spokane for homesteads on the Indian reservations to be opened up.

Thomas Brown, from the town of Lake Edwards, was arrested Saturday afternoon on a warrant sworn by his father-in-law, George Moore, charging Brown with assaulting him with a gun and hammer. Brown was lodged in jail here over Sunday and was taken to Hubert today by Deputy Sheriff Theorin, for a hearing before B. C. Heald, Jr., justice of the peace.

Jacob Schmidt's bottle beer is delicious. We have the agency. Order a case. Telephone 164 John Coates Liquor Co. tf

Frank Smith and Robert Cromwell have leased the Bijou theatre and will conduct it in the future. Mr. Smith, who has been machine operator there for several months is thoroughly familiar with the mechanical end of the business and Mr. Cromwell has been connected with the Park opera house for several years as stage manager and should be versed in catering to the public in the amusement line.

O. G. Graham and family returned last night from a 56-day trip by team to Wahpeton, N. D., and Mr. Graham says Brainerd looks good enough for him. He tells some tough stories of

the excessive wet weather this spring and says that in some sections the farmers have lost three and four successive crops. At Foxhome, Minn., he says that parties were willing to vouch for the fact that fish were speared in the main street of the town this spring, by men standing on the sidewalk. Mr. Graham and family will for the present occupy his residence on South Eighth street. He returns from the trip much improved in health.

We do cleaning, pressing and repairing. All work guaranteed. Give us a trial. L. S. Zakariasen, The Tailor, 704 Laurel St., successor to P. M. Zakariasen. 331tp

SCHOOL'S GOOD ANGEL
J. W. Harriman Aids Old "Prep" Institution With \$150,000.
SOUGHT TO HIDE HIS GIFTS.

New Yorker Revealed as Mysterious Donor to the Cheshire School in Connecticut—J. P. Morgan Was Trained There—His Pranks Recalled. Mr. Harriman's Peculiar Experience.

Many a millionaire has remembered his college alma mater in substantial endowments, but it remained for Joseph W. Harriman of New York city to remember his "prep" school with several thousands.

For months it has been a mystery where Cheshire school, the Episcopal academy of Connecticut, was receiving the large amounts expended on new buildings and in renovation of structures standing since its foundation in 1794—an amount upward of \$150,000.

It was learned the other day that the entire sum was from Mr. Harriman, who entered the school at the age of nine and left in 1880. A reporter taxed him with it at his office.

"I guess I'll have to admit that I am the 'angel,'" he said, "although I hoped to keep in the background. I know how much I owe to the training I had in that dear old fashioned 'prep' when my father took me there years ago, a motherless 'kiddle'."

A natural next question was why Mr. Harriman had taken the unusual course of looking after the welfare of his preparatory school instead of his college.

"I found they were drifting because they lacked funds and equipment," said Mr. Harriman, who is a nephew of Edward H. Harriman. "It seemed to me that a school that prepared for college men like J. Pierpont Morgan, General Alexander Perry, the late General Joe Wheeler, James B. Dill, Bishop Lines, Ernest Flagg, Dr. Holbrook Curtis, Dr. William G. Vibbert, Clinton Peters and C. La Rue Munson should not be permitted to go to decay. I never gave any money that brought more satisfaction than seeing the old school re-established, and I guess they know I propose to see the thing through."

"Joe" Harriman, as he is known among the Cheshire alumni, just as Mr. Morgan is known as "Ponty," had a peculiar experience at the school. He was taken in after his mother's death at an age several years below the minimum. There was one other "baby" there—Clinton Peters, the artist, who has since been honored by the academy in Paris and who has a studio in New York.

The older boys would not play with them, and Peters and Harriman had to make their own amusement. They became chums, only to drift apart when Peters was sent abroad to study. They discovered each other a few years ago, and out of the reunion came a renewed interest in the old school.

They went to Cheshire, and Mr. Harriman's decision to rehabilitate the institution was made on the spot. A few days ago they returned to celebrate the one hundred and fifteenth commencement of the institution. There were 300 of the old boys in attendance.

The most notable event was the return of the old bell which had served in a Spanish mission and had been seized in Connecticut from a Spanish vessel. The school got a new bell in 1880 when Trinity college, at Hartford, was being improved, and the old bell was given to a church at Brainerd, Conn. Thence it went to another church at Southington. Herbert D. Lloyd, treasurer of the school, traced the bell, and William C. Demerest of the class of '75 provided the funds for its recovery.

A number of stories about Mr. Morgan's schooldays were retold at the commencement. He was apt in his studies, but he had a knack of making original trouble for head masters and their assistants. One night Morgan started a big round stove rolling down a stairway a tutor was mounting. No one "squealed," and as a result the whole school was put "on punishment."—New York American.

The National Summer Capital.
Beverly and Manchester-by-the-Sea, on the north shore of Massachusetts, are likely to become the combined summer capital of the nation in 1909. President Taft has chosen to spend the summer months on that historic rocky coast where for years past many prominent members of the diplomatic corps have had their rendezvous. Environment has a marked influence on opinions and decisions, and prophetic and imaginative souls predict great results when the executive department is companioned for months by the cease-

less ocean roll that breaks in storm and calm all along the north shore from Gloucester down to Marblehead and to Swampscott. The vivifying breezes of that New England coast may induce a breadth of view wide as the great ocean and vigorous as the salt breezes.—Joe Mitchell Chapple in National Magazine For July.

Too True!
There is a rare bit of pathos in the letter written by the late Dr. Edward Everett Hale to the Tyngsboro, (Mass.) centennial committee in the latter part of March regretting his inability to attend the celebration. He wrote, "I have another engagement, which I cannot cancel, for the end of June."

MUSIC FOR HIS COWS.
Jersey Farmer Uses a Phonograph to Encourage the Milk Industry.
Asserting that the psychic qualities of phonograph music have the effect of persuading his cows to give more milk than they are inclined to give without the aid of soul stirring harmonies, Steever Smith, a farmer near Great Notch, N. J., went to Montclair, N. J., recently and purchased a dozen new records at a music store for use in his dairy.

Smith said he formerly had in his employ as dairymaid a Swiss girl, whose yodling to the cows had such a soothing effect that the bovines would have made him rich through their efforts if the pleasant conditions could have continued for a few years. The girl, Lena by name, got married, and after her departure the cows moped and refused to give much milk.

The accidental introduction of the phonograph at the farmhouse gave Smith a hint as to its advantages as a substitute for the songs of the tuneless dairymaid, and now the cows are in a fair way to become heavy milk producers, as of yore.

RICH GOLD FIND IN CANADA.
Field Discovered in Saskatchewan Province Rivals the Klondike.
The most remarkable gold discovery since the Klondike finds was recently made at Lac La Ronge, 200 miles north of Prince Albert, in the great hinterland of the province of Saskatchewan. H. C. Hamelin and B. L. Clemons of Prince Albert, having evidence of a rich gold area in northern Saskatchewan, outfitted last year three parties of prospectors. The finds were encouraging, but not sensational. This year two more parties were sent out, and the finds which have been made of an eight inch vein of free milling gold quartz has created a profound sensation.

Deputy H. C. Hamelin has a specimen from the vein quartz declared to be the richest and best defined specimen he has seen. The assays so far made from former finds have shown \$51 to \$78 and \$61 to \$64 to the ton respectively, but the latest sample is declared to carry from \$20,000 to \$30,000 to the ton. The finds have been made within forty miles of each other.

DR. ELIOT'S BOOK LIST.
Bible and Shakespeare Omitted at Publisher's Suggestion, He Says.
President Emeritus Charles W. Eliot of Harvard recently said of his five foot library of best books that he was paid by a firm of New York publishers for picking out the list. Every Harvard graduate was surprised after the commencement the other day to receive an announcement from the New York publishers of the issuance of the books in "Harvard crimson" binding. Dr. Eliot when seen said:

"The list of books as mentioned is very incomplete. I expect when the task is finished to issue twenty more titles. I will try to confine the list to sixty books. When the publishers asked me to select the books for a proposition of this kind I was glad to do it, because I felt if my name as compiler of the list induced people to read the books a great educational work would have been done. My position in this matter is thoroughly understood by all who know me."

"I do not consider that my course in acting as editor could be considered as lending my name or what prestige I might have for advertising purposes, as has been insinuated. It is a strict business proposition, and naturally the publisher will advertise largely."

"The Bible and Shakespeare were omitted from the list at the suggestion of the publisher. The reason, of course, is that most people have read the Bible and Shakespeare. The list was originally intended to be a fifty book list. Now, any good edition of Shakespeare would take five volumes, the Bible would take three volumes, and there would be eight gone out of the fifty."

"Society of the Moon Kissed Lotus."
Selected for their proficiency in culinary lines over the heads of 2,000 classmates, three young ladies from Japan are now at the Alaska-Yukon-Pacific exposition in Seattle, Wash., demonstrating the many features of Japanese kitchen art in the Japanese tea garden. The young ladies are known in Nipponese as Yachigo, Matsura and Yetsu Sato. They are unable to speak English and appear dressed in the national kimono of the flowery isles. In the seminary in Tokyo in which they are scholars they belong to a sorority, built on the same lines as American sororities, called the "Society of the Moon Kissed Lotus."

WATER PLANT WORTH \$57,500

Commission in Condemnation of
Water Plant Fix Value at
This Amount

THE OUTCOME IS UNCERTAIN

City May Not Accept the Award
and Company May Appeal
if City Makes Offer

Geo. S. McCulloch, J. J. Tucker and W. L. Jack, appraisers in the matter of the condemnation of the plant of the Minnesota Waterworks company completed their work Saturday evening and have filed their report. They place the value of the plant at \$57,500. It is a matter of uncertainty whether or not the company or the city are either one satisfied with the price, which was about midway between the values set by the witnesses in the two parties. The city's expert placed a value of about \$28,000 and the company's experts valued the plant at \$105,000 to \$118,000.

Everyone would be benefited by taking Foley's Orino Laxative for stomach and liver trouble and habitual constipation. It sweetens the stomach and breath, gently stimulates the liver and regulates the bowels and is much superior to pills and ordinary laxatives. Why not try Foley's Orino Laxative today. H. P. Dunn. mwf

PREPARE FOR LABOR DAY

St. Paul Trades and Labor Assembly
Committee is Appointed for Celebration at State Fair

Plans for the celebration of Labor Day were initiated at the meeting of the St. Paul Trades and Labor Assembly on the night of Tuesday, June 10, when President J. Maiden appointed a Labor Day committee of fifteen.

The committee is as follows: A. L. Rich, H. W. Goetzinger, G. W. Murray, A. W. Bird, C. W. Douglas, Andrew Marrazane, Matt Wardell, Joseph Wilson, Thomas Rice, G. H. Becker, A. H. Garfield, Fred Rihm, J. W. Taylor, J. P. Walsh and J. W. Hovey.

At the meeting of this committee on Monday evening, June 21, it was decided to hold a parade on Labor Day, and an effort will be made to have this parade eclipse all former undertakings.

The committee instructed its sub-committee on grounds to meet with a similar committee at Minneapolis to arrange for a conference with the officers of the State Fair Association for a proper celebration of the day on the state fair grounds.

An invitation has been extended to Bishop McIntyre, of St. Paul, to deliver an address, and it is believed he will accept. The bishop is one of the most eloquent speakers in the state.

Many people with chronic throat and lung trouble have found comfort and relief in Foley's Honey and Tar as it cures stubborn coughs after other treatment has failed. L. M. Ruggles, Reasnor, Iowa, writes: "The doctors said I had consumption, and I got no better until I took Foley's Honey and Tar. It stopped the hemorrhages and pain in my lungs and they are now as sound as a bullet." H. P. Dunn. mwf

Woman Commits Suicide

Indianapolis, July 9.—Mrs. Elizabeth Adams stabbed herself to death with a kitchen knife at her home in the Pasadena apartment house. Mrs. Lillian Kelly, wife of the janitor, who was the only witness, said the act was committed immediately after Mrs. Kelly had talked with a traveling salesman over the telephone.

Ideal for our "Athletic" underwear—the knee length, sleeveless kind.

Belts 25c to 75c.

Outing Shirts 75c to \$3.00.

Lion Brand Collars in quarter sizes, 15c each, two for a quarter.

A CLOSE CALL

City Hotel Had a Close Call This
Morning From a Fire Which
Started in Basement

The City hotel had a close call from destruction by fire this morning. The fire was in the basement. As near as can be learned the fire, which originated in the basement was caused by the turning over of a lamp. Mr. Smith, the proprietor states that he has no knowledge of the cause, as he was not at the hotel at the time the fire broke out, but a gentleman who was a guest states that an employee earlier in the morning, about three o'clock, over turned a lamp while in the cellar after some eggs. The blaze was extinguished, it was thought but smoke continued to come from the basement and about 4 o'clock the department was called out and had a stubborn fight of nearly an hour before the fire was put out.

There is several hundred dollars damage, largely from water, all of which is covered by insurance. The building is owned by J. T. Sanborn and the hotel conducted by James Smith.

The lack of water was a source of great anxiety to those acquainted with the conditions existing. The intake pipe is half out of water, for the first time since it was put in and the pumps were pumping nearly as much air as water. The usual drain for lawn sprinkling (much of it without regard for the rules or hours) has made the low water in the river more dangerous than it would be the people who use lawn hose see that they are shut off at the proper time. The writer in walking about six blocks in going to the fire this morning saw no less than three lines of hose which had been running, apparently all night. If it was the same all over the city it is not to be wondered at that the supply of water with the low stage of the river, is inadequate. This unlawful use of water is not so much a detriment to the water company as it is a menace to the safety of the city in case of fire.

Delay in taking Foley's Kidney Remedy if you have backache, kidney or bladder trouble, fastens the disease upon you and makes a cure more difficult. Commence taking Foley's Kidney Remedy today and you will soon be well. Why risk a serious malady? H. P. Dunn. mwf

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for testimonials.

Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

TWENTY YEARS AGO

The first blueberries of the season appeared on the market Monday.

In Little Falls the electric light poles are to be painted red, white and black in stripes. It will give the town the appearance of a forest or barber poles.

Engine 10,000, which was in Brainerd last week is of the new consolidated pattern, built especially for the Northern Pacific for mountain traffic, and was a perfect leviathan. It was one of 73 ordered from the Baldwin works.

Henry Vayette, a long driver from Brainerd successfully shot the shute of the Little Falls dam last week.

Peter Nelson, who has been in St. Paul for three weeks returned Sunday morning. His little child, who is undergoing treatment for inflammation of the eyes is no better and the sight of one eye is gone entirely and but slight hope remains of saving the other. The child is but six weeks old.

Railroad work is progressing rapidly at Staples. The track for the yard has been laid, the foundation for the roundhouse has been laid and the walls are up several feet. The prospects are that it will be quite a good sized town in a few months and it will be the end of three of the big divisions on the Northern Pacific line.

Miss Amie Metcalf, daughter of Mr. and Mrs. Charles Metcalf, and Mr. Fred H. Campbell, of St. Paul, were united in marriage at the home of the bride's parents, Thursday evening, July 11.

A fund of \$3,496.66 has been raised among employees of the Northern Pacific railway for Mrs. N. D. Root, widow of the assistant general superintendent of the road, who was killed in Montana last week. Of this sum \$2,000 has been paid for a house for Mrs. Root in Brainerd and the rest will be invested in good securities and turned over to her in a few days.

Brainerd this year gets \$138.44, from the premiums paid on fire insurance policies in this city.

Louis Lajoy, known as "Stubby" lost both thumbs and index fingers and part of the second finger on the left hand by the explosion of a fulminating cap which he thought to be a cartridge. A purse of about \$50 was raised for him.

On Tuesday of next week D. M. Clark, of Brainerd, and Miss Rosalie Fasching, of Winona, will be married in that city.

If people with symptoms of kidney or bladder trouble could realize their danger they would without loss of time commence taking Foley's Kidney Remedy. This great remedy stops the pain and the irregularities, strengthens and builds up these organs and there is no danger of Bright's disease or other serious disorder. Do not disregard the early symptoms. H. P. Dunn. mwf

LOCAL BASE BALL

The Brewsters easily defeated Aitkin yesterday on the latter's ground by a score of 15 to 4. The first few innings were close and exciting but the boys soon found Spalding and before the game was over the Brewsters had made a total of 18 hits. Dean White was on the rubber for the Brewsters and held Aitkin safe at all times, he allowed but eight hits and struck out 16 men. Willis was taken sick during the third inning and had to leave the game. The Brewsters will play the Cuyuna team next Sunday.

Foley's Honey and Tar not only stops chronic coughs that weaken the constitution and develop into consumption, but heals and strengthens the lungs. It affords comfort and relief in the worst cases of chronic bronchitis, asthma, hay fever and lung trouble. H. P. Dunn. mwf

MUSIC AND DRAMA

Bijou

The Newman Sisters who appear at the Bijou this week are two of the cleverest little artists in their particular line. The youngest, Miss Maude is only 14 years of age and is said to be a clever little dancer. The girls, as a team present some of the latest and most popular songs and the costumes are very attractive and elaborate. These two sisters will be at the Bijou all this week and will entertain you in a most delightful manner.

Trustee's Sale

The undersigned will offer for sale, at Brainerd, Minn., on July 14th, 1909, at 4 p. m., the \$20,000 stock of general merchandise, formerly owned by C. N. Sonnesya. This stock consists of Dry-goods, Groceries, Hats and Caps, Boots and Shoes, Clothing, Notions, etc.

JOHN P. GALBRAITH, Trustee,
21 501 Endicott Bldg., St. Paul, Minn.

To Quebec and Return \$30

Via the South Shore in connection with the Annual Pilgrimage to Ste. Anne de Beupre. Tickets on sale July 18, 19, 20, 21 and 22nd and good for stop over Limit August 31st. Excursion fares to all Eastern points; tickets on sale every day, return limit Oct. 31st.

For further particulars and reservation write A. J. Perrin, General Agent, Duluth, Minn. 7-20

WILL VISIT OLD ERIN

Irish Home Going Pilgrimage to
Mother Land Planned.

LEAGUE HAS BEEN ORGANIZED

Officers Elected at a Meeting Held in Washington—Information About Ireland and Its Industries to Be Gathered—Much Interest Shown in the Movement.

The intended Irish home going pilgrimage, which was first proposed by Francis J. Kilkenny and which has been discussed by Irishmen all over the United States for several months past, was made a certainty at Carroll Institute hall in Washington the other night. A permanent organization was formed, and plans were outlined for the pilgrimage, which will be made in 1910.

The organization is to be known as the Irish Home Going Pilgrimage league. Its purpose is to gather all information regarding events in Ireland next summer and to arrange rates on the transatlantic steamship lines. Mr. Kilkenny and Dr. P. J. Lennox were appointed to visit Ireland this summer and prepare the way to next year's pilgrimage.

Since Mr. Kilkenny began stirring up interest in the home going movement he has been swamped by correspondence, and it was found necessary to have a regular organization to bear the expenses of the movement. The membership fee is \$1, the fund obtained from the dues to be expended for running expenses. Headquarters will be opened in Washington, and literature will be prepared and sent out all over America and Canada. The officers chosen are the following:

President general, Francis J. Kilkenny; first vice president general, P. J. Moran; third vice president general, John J. Coughlin; fourth vice president general, P. J. Haltigan; fifth vice president general, Representative T. T. Ansberry of Ohio; general treasurer, William F. Downey; general secretary, Joseph D. Sullivan.

In outlining the general plan for the pilgrimage Mr. Kilkenny said:

"Few people realize today the changes wrought in Ireland for the betterment and uplifting of its people. This is due in large measure to the reform legislation generally, and especially to the relief given the tenants in Ireland through the land bill of 1903, enabling them to own their own farms. The people of Ireland are now improving their holdings without fear of being taxed by the landlords for improvements."

"The main idea underlying the home going to Ireland movements is to give the visitors an opportunity for observing conditions as they really exist in Ireland. Much has been written and much will be written of Ireland's poverty and Ireland's riches, but these descriptions are not half as vivid or impressive as the actual sight of the conditions themselves."

"This movement therefore offers an opportunity to the sons and daughters of Erin to return to the scenes of their childhood, to give a word of cheer where needed and to demonstrate to those who still remain to preserve the old traditions that we are all interested in the land of our forefathers, in its people and in the preservation of its natural beauty. One striking fact comes out in the official statistics, and that is that the total emigration of the Irish people from May 1, 1851, when the enumeration was commenced, to Dec. 31, 1908, practically equals the present population of the country, being more than 4,000,000."

After further review of conditions Mr. Kilkenny said:

"The mercantile mind of Ireland must be awakened. The Irish merchant and business man must be won over to the point of view of their own real interests. Representative Irish Americans can do much to encourage commercial relations with this country. American capital can be profitably invested in Irish factories and Irish stores. Irish linens, lace, woollens, tweeds, frieze and kindred industries can be easily developed to a high state of efficiency."

"Ireland offers to the manufacturer many attractive inducements for profitable returns on capital invested. Not only is the capital of Irish Americans needed, but their skill and experience in the use of modern methods and devices will prove to be of invaluable service in the industrial awakening which is now just beginning to dawn in the 'old land.'"—Washington Star.

China had her Joan of Arc. Tradition tells of a maiden, Mou Len, who, in the garb of a man, led the armies of the empire to victory.

Special Police With Yankee Robinson Shows

Special uniformed police are carried with the Yankee Robinson Shows to guard against grafters. Anyone having any trouble of any kind will report same to the front door and special police will be delegated to look after the trouble. No grafters of any kind are permitted around the big show and any information regarding any bad character around the show will be thankfully appreciated. A substantial reward will be paid for the arrest and conviction of anyone short changing or in fact committing any crime around the show.

Yellow a Favorite This Summer.

Yellow is the popular summer shade. It is being worn in Newport and in Washington. Mrs. Arthur Scott Burden has been seen in Newport almost exclusively in yellow, and her example has been followed by many young women who cannot hope to match her in originality. In the capital, Mrs. Knox, daughter-in-law of the secretary of state, and Miss Helen Taft have taken the lead in the fad for yellow. Mrs. Knox has one unusually pretty empire frock of yellow embroidered net over yellow satin. Bows of old yellow lace are on each shoulder, a yellow lace sash is worn and also yellow satin slippers. A wreath of gold leaves gives the finishing touch. Miss Taft's favorite combination is yellow lace over yellow silk. Almost all the hats worn in the afternoon in both Washington and Newport for the last few weeks have had a touch of yellow, and many have had a full yellow crown.

Mrs. Dorcas—Why did you expel her from the Women's club? Mrs. Learned—She proposed a motion that instead of engaging a professor of Hindoo philosophy we should hire some one to teach us how to get into a cab, how to sharpen a pencil and how to carry an umbrella in a crowd.

How to Grow Dollars.

Every worker in the ranks hopes for a competence that will make his old age comfortable and independent. Sudden strokes of fortune are rare, and, besides, they seldom come to those who fail to put up their lightning rods. There is no royal way to wealth, and the only way the average person can hope for that competence is by saving. You must plant pennies and nickels and dimes now that they may grow to dollars when you need them. That seems rather a slow way, to be sure, but it is the only way. You can't any more hope to gain independence by spending all you make than you can hope to grow potatoes by eating them. Besides, it isn't nearly so slow as it seems. It is slowest at the start. It gets faster all the time you keep it up, and then is when it will begin to be really interesting.—Duluth Herald.

OUTLAWS ATTACK TEN HORSE BUYERS

Nine of the Texans Thought to
Have Been Killed.

El Paso, Tex., July 12.—A special from Afton, N. M., thirty-five miles west of here, says:

Outlaws attacked ten Texas horse buyers in this camp and it is believed killed nine of the men.

The horse traders were driving 300 head of cattle from New Mexico into Texas when near Afton they camped for the night. The outlaws, who evidently had been trailing the Texans, then made the attack. Only one of the ten horse traders escaped and he, although wounded, reached Afton and told the story of the killing of his nine companions.

Afton is a railroad station on the Southern Pacific and has only a section house and telegraph office. After the first report was received in El Paso, neither the dispatcher's office or the telegraph companies could raise Afton. It is feared the outlaws attacked the station to prevent news of the killing from being sent out.

The survivor who reached Afton said the outlaws were Indians, but it is thought at Afton that they were Mexicans.

MAYOR CALLS FOR TROOPS

Soldiers Needed to Restore Order at a Colliery.

Sydney, C. B., July 12.—Unable to cope with the lawlessness of strike rioters at the Inverness colliery, Mayor D. H. McLeod was forced to call troops from Halifax to restore order. The Inverness colliery is owned by the firm of Mackenzie & Mann, which is not connected in any way with the Dominion Coal company, against which the Glace Bay strike is aimed, but about half the men at the Inverness colliery belong to the United Mine Workers of America and they went out on a sympathetic strike last Friday.

The men of the Provincial Workmen's association continued at work in the mine but when they were leaving the workings for their homes, they were met by a crowd of 300 men, boys and women, mostly Belgians, who saluted them with various epithets. Soon sticks and stones began to fly and one miner received a bad cut.

The mayor and members of the town council with thirty special and regular policemen tried in vain to keep the crowd in order. The disturbance continued until the workmen had gained the shelter of their homes. When General Manager Barclay of the colliery arrived in town he asked that troops be sent to maintain order and the mayor complied with the request.

A special train from Halifax arrived with 150 men from the Royal Canadian regiment who at once went on guard at the colliery. It is feared that there may be a further demonstration when the colliery is reopened for work.

PRESIDENT'S WESTERN TRIP

Indications Are That the Itinerary Will Be Extended.

Washington, July 12.—Indications multiply that President Taft's announced itinerary for his Western and Southern trip this fall will be materially extended. The president himself did not include in the tentative list which was published all of the places where he expects to stop long enough to make an address and hold a brief card-reception. The itinerary was made up of those cities where the president will spend from one to three days.

Strong efforts will be made by congressmen and state officials to have the president stop, for a few minutes at least, at nearly all of the towns of appreciable size through which his train will pass in the daylight hours. Already the president has been bombarded with such requests. He has suggested to all of his callers and correspondents that they take the matter up with him later in the summer when the detailed plans for the trip actually are under consideration.

FOR CAPTURE OF LEON LING

Chinese Consolidated Benevolent Association Offers Reward.

San Francisco, July 12.—A reward of \$500 for the capture of Leon Ling, wanted in New York for the murder of Elsie Segel, has been offered by the Chinese Consolidated Benevolent Association, better known as the "Chinese Six Companies," the most influential organization among the Chinese in America. Placards announcing the reward and calling upon the Chinese to assist in capturing Ling were posted in Chinatown.

Talks to Endeavorers.

St. Paul, July 12.—Three splendid addresses along reform lines filled the programme of the Christian Endeavor convention at the Auditorium. Dr. Clark gave a general review of the activities of Christian Endeavor in reforms. Rev. J. T. McCorty of Pittsburgh pointed out the way of amalgamation of the forces to annihilate the saloon. Dr. W. F. Wilson of Toronto presented the evangelical church as the solution of the evils which need reform in the country.

JOHNSON AND AL KAUFMAN

Effort Will Be Made to Clinch Match Between Them.

New York, July 12.—An effort will be made this week to finally clinch the match between Jack Johnson, the heavyweight champion, and Al Kaufman of California, set for either September or October, and to determine the place of meetings. Johnson signed articles early in June but since that time pressure has been brought to bear upon the champion to cancel the match on the ground that it would interfere with his fight with Ketchel.

The pugilistic atmosphere is undergoing constant changes with respect to the plans for the undoing of Jack Johnson. Until his recent fight with Billy Papke there was a strong hope among fight followers that Stanley Ketchel might overcome the negro, but that hope is now glimmering. Ketchel made little impression on Papke and it is figured by Charley Harvey, who looks after Kaufman's interests, that if Ketchel can't put away a middleweight then he would have to show against the cleverer Johnson and his 210 pounds of bone and muscle. Harvey says that Kaufman is the man to meet Johnson for the title.

Friends of Jim Jeffries say that notwithstanding the announcement of the former champion preliminary to his theatrical engagement, that he would fight Johnson, the one-time brawler will never re-enter the ring. It is stated by those close to Jeffries that his condition would not allow him to go over a few fast rounds.

FROGS COME DOWN IN RAIN

Cover Sidewalks So That Walking Is Difficult.

Utica, N. Y., July 12.—A message from Gouverneur states that in a heavy wind and rain storm there thousands of small frogs fell, covering the sidewalks to such an extent that walking was difficult. The rains on the Rome, Watertown and Ogdensburg division of the New York Central railroad for half a mile were covered and rendered so slippery that the speed of the trains was materially lessened.

Will Be Buried in Arlington.

Washington, July 12.—Professor Simon Newcomb, the famous astronomer, mathematician and world traveler, who died at his home in this city early Sunday at the age of seventy-four years, will be buried with military honors in Arlington cemetery next Wednesday.

RESULTS ON THE DIAMOND

SATISFACTORY TO THE PEOPLE

Committee Has Task of Drafting
Tariff Bill.

CONCESSIONS MUST BE MADE

Conferees From Both Houses Realize

That They Must Yield on Some Points in Order That an Agreement May Be Reached—Senate Made Over Eight Hundred Changes in the House Measure.

Washington, July 12.—Making a tariff law that will most nearly meet the wishes of the greatest number of people and at the same time raise sufficient revenue for the expenses of the government—that is the task with which for four months both houses of congress have wrestled and which has now reached what might be called the semi-final or conference stage. Eleven men, five Republican senators and six Republican representatives, have shouldered the responsibility of evolving from the two tariff bills passed by the senate and house a law that will be acceptable not only to both houses of congress but also to the president, and above all to the mass of the people.

While the conferees from both houses desire to have retained in the bill the schedule as approved by their respective branches, none realize better than they that they must make concessions. Their present determination not to yield will give way to a more conciliatory attitude as the conference wears on.

The senate made 847 changes, many of them merely verbal, in the tariff bill as it passed the house. Members of the house claim the latter's measure comes closer to answering the public demand for a "revision downward" than does the senate bill. Whether it would provide all the revenue needed to run the government is a question. The fight hinges upon the number of the changes made by the senate the house conferees can be induced to accept.

Upon the one hand Senator Aldrich will be found contending for the higher, revenue raising tariff. On the other will be found Representative Seney Payne leading the house forces in fighting for lower duties.

Senator Aldrich reiterates his statement that the senate bill if enacted into law would not impose additional burdens upon the consumer.

Statement by Aldrich.

"Isolated cases of increases of rates are taken and the entire bill condemned because of these," said Mr. Aldrich. "It is usually the case that if the section of the country which has found fault with one schedule would consider the transfers of articles to the free list and compare the increases with reductions that have been made that section would see that it has been made a beneficiary to no small degree by the general revision."

General T. S. Sharretts, the veteran tariff expert, who has been a member of the board of general appraisers in New York for many years, is authority for the statement that the senate bill will show a 2 per cent reduction from the rates of the Dingley law and a very material reduction from the house rates.

"Some folks may say that 2 per cent is not a great reduction," said General Sharretts, "but when you consider that the rates of the Wilson bill, the Democratic tariff measure adopted during the Cleveland administration, were not 2 per cent lower than the rates of the existing law you will realize how extensive a 2 per cent reduction really is."

General Sharretts, who is a Democrat, is assisting the conference committee in its deliberations. He performed the same office for the Democrats when the Wilson bill was in conference and was of valuable assistance.

This viewpoint is not shared by Representative Payne, who said that the rates of the house bill, judged from the standpoint of the interest of the general public, are materially lower than those of the senate bill.

Mr. Payne declined to discuss at the time the relative merits of the separate provisions of the two bills. The conferees hope to conclude their work by the end of next week, holding lengthy sessions daily and extending them late into the evenings. In the meantime both houses will mark time, holding sessions every three days.

Leaders in both houses are hopeful of finally disposing of the tariff before the end of the present month.

Many Hurt in Wreck.

El Paso, Tex., July 12.—The through passenger train on the Southern Pacific, westbound, No. 9, went into the ditch 100 miles east of here. Five coaches are in the ditch. Many persons are reported injured.

Mrs. Roosevelt at Genoa.

Genoa, July 12.—After a stormy passage, the steamer Cretic with Mrs. Theodore Roosevelt and her three children aboard, arrived here from Naples. The party remained aboard the steamer.

TWO KILLED IN COLLISION

Eleven Other Persons Injured, Two Perhaps Fatally.

Bailey's, Col., July 12.—Nineteen persons riding on a hand car and an attached push car collided on a curve in Platte canon on the Colorado and Southern railroad with a freight train. Two persons were killed, two perhaps fatally injured and eleven seriously hurt.

The party was returning from a baseball game at Shawnee, running down grade to Bailey's at a rate of forty-five miles an hour. There were several women in the party, most of whom were Eastern tourists spending the summer at Bailey's.

When the cars struck the engine all the nineteen persons were thrown into the air, most of them striking outside the rails. The freight train was stopped and took the injured and dead back to Bailey's, where a special train was ordered from Denver to take the injured to Denver hospitals. The killed were a section foreman and a railway employee at Bailey's. William Most, twelve years old, and Frank Nehring, son of a wealthy Colorado ranchman, are not expected to live.

THE SIXTH ANNUAL GLIDDEN TOUR BEGUN

Automobiles Leave Detroit in
Reliability Test.

Detroit, July 12.—With all the ceremony that befits so notable an event in automobile history the sixth annual Glidden tour, known officially as "the annual reliability contest of the American Automobile association," was started today from the Campus Martius in this city. A large and enthusiastic assemblage, headed by the city officials, was on hand to see the forty machines begin their tour of 2,637 miles.

The tour, which is primarily an endurance test of the cars engaged, will go by way of Chicago to Minneapolis, to Omaha, thence to Denver and return to Kansas City, where it will disband. The distance must be covered in fifteen days, exclusive of two days' rest in Minneapolis and two in Denver.

Owing to the rigid tests applied to the machines the Glidden tour is really a contest of manufacturers. They compete this year for three trophies—the Glidden for touring cars, the Howar for runabouts and roadsters and the Detroit for the miniature tonneau type of car. In addition there are a few noncontestant participants and the two official cars. An exceedingly close watch is kept on each contestant by all the others and every flaw or default in the construction or running of the car is noted and penalized.

LECTURES AT CHAUTAUQUA

Will Deal in the Main With Character Development.

Chautauqua, N. Y., July 12.—For one week, beginning today, the programme at the Chautauqua assembly will be conducted by the Religious Education association. During the week lectures will be delivered on character development, through the college and university, through the public schools, through the Sunday school, through the church, through social and personal hygiene and through social living. The lectures will be delivered by well known theologians and educators.

For the conference hours there will be a series of conferences, each opened by a special speaker, on the general topic of moral and religious education in the home. The council of the Religious Education association will hold its semi-annual meeting on July 13 and 14 and the recently appointed commission on the graded Sunday school courses will meet here July 15 and 16.

CANDY MAKERS IN SESSION

Begin a Week's Convention at Wildwood, N. J.

Wildwood, N. J., July 12.—The men whose business is the satisfying of America's gigantic appetite for sweets—in other words, the National Jobbing Confectioners' association and the National Manufacturing Confectioners' Salesmen's association, met here today for a week's convention.

While here the delegates will discuss the effect of recent food legislation on the candy trade and other matters of trade interest. The president of the jobbing confectioners is D. L. Morgan of Scranton, Pa. William T. Brierly of Baltimore is president of the salesmen.

Tornadoes in Illinois.

St. Louis, July 12.—Special dispatches from Pana, Ill., and Xenia, Ill., say that tornadoes struck those towns. At Xenia four persons were injured and several buildings were destroyed. No one was hurt at Pana, but the property damage was considerable. Grain was levelled by both storms.

Swallows Acid by Mistake.

Minneapolis, July 12.—James A. Walsh, forty years old, swallowed a quantity of carbolic acid by mistake and died from the effects of the poisoning before a physician could reach him.

TO PREVENT WASTE.

Railroads to Participate in National Conservation Movement.

ADVICE SOUGHT FOR BY THEM

Joint Committee to Give Them Suggestions as to Practical Method of Putting Policies into Effect—Enormous Consumption of Steel and Timber by Railways.

A plan by which the railroads are to take part in the conservation movement is announced as the outgrowth of conferences and correspondence between representatives of the carriers and the joint committee on conservation. Preliminary negotiations on the part of the railroads have been conducted by representatives of the American Railway Engineering and Maintenance of Way association. Attention was also given to the subject of conservation at the recent meeting of the American Railway Master Mechanics' association at Atlantic City, N. J. The great quantities of timber, iron and coal used by the transportation lines are the bond of interest between them and the conservationists.

The plan as outlined provides for a systematic arrangement by which the committee on conservation is to give the railroads suggestions as to the most practical method of putting conservation policies into effect. The railway men agree to carry out these suggestions. The conservation authorities have submitted a plan which is now in the hands of A. S. Baldwin, chief engineer of the Illinois Central railroad, who in a letter to the conservation committee says:

On account of the wide areas traversed by the railroads and the great consumption by them of timber and fuel, with their enormous use of iron and steel products, it is believed that the most effective assistance of the American Railway Engineering and Maintenance of Way association can be in directing the attention of railroad officials to the excessive wastefulness in the present methods of production of timber and fuel and the great importance of introducing economies in their use and consumption; also to the importance of economizing in the use of iron and steel products and the possibilities of preservation by protective coatings and otherwise.

With this end in view the railroad conservation committee has asked for specific suggestions as to the best methods that should be used by railroads in the prevention and control of forest fires. The conservation committee has presented an outline for this work and with it a statement showing the enormous loss of lumber through forest fires every year.

The conservation committee of the railroad association has also asked for advice as to how a reduction in railroad expenses may be brought about by the use of treated ties and for suggestions as to the importance of encouraging in the coal territory served by them the use of byproduct ovens. Railroad representatives also want to know what useful varieties of trees can be grown to advantage in each state or group of states, and they ask for information as to how they should be started. They say there is scarcely a railroad in the United States that has not some spare pieces of land that might be profitably planted in trees if the railroad officials knew what trees were best suited to the particular locality.

This information has been furnished. The railroad association, through its conservation committee, has likewise inquired as to the extent of saving in timber through the use of saved instead of hewed ties. Inquiries as to the prolongation of life of the steel and iron used in bridges and other constructions have also been made. All these inquiries the committee on conservation has undertaken to answer, and it will be a matter of only a short time until the suggestions are in the hands of the chief engineers of all the great railroads in the United States.

The conservation committee of the railroad association says it will "place itself at the service of the joint committee on conservation in endeavoring to get from the railroads such definite data as to the consumption of ties and timber and fuel as may be desired" and that it "is prepared to investigate and report as may be desired by the joint committee on conservation as to the possibility of substitution of other materials for ties and timber." This offer is regarded by the joint committee as one of great importance.

On account of the magnitude of the plan it is probable that all of the forty state conservation commissions appointed by the governors will be asked to join in helping carry it out. "The committee will be glad," Mr. Baldwin of the railroad association says, "to co-operate with any of the national or state organizations in its efforts to obtain this information or further the work of the commission in any way in its power that may be outlined by the joint committee on conservation and holds itself at the committee's service until further instructed."—Special Washington Cor. New York Post.

Coming Home.

They have calmly chewed their cuds Through the burning summer day. Now they turn into the lane In the twilight soft and gray. We can hear their tinkling bells As the dusky path they roam. And a sense of peace descends When the cows come home.

They have "chewed the rag" for months

Through the torrid summer heat, And our business has stood back While they made their job complete. When we hear the engine bells As they journey in the gloam, What a peace will fall on us When the congress comes home!—McLandburgh Wilson in New York Sun.

THREE INSTANTLY KILLED

Bomb Explodes During a Church Celebration.

Kansas City, Mo., July 12.—Three people were instantly killed by the explosion of a bomb during a postponed celebration of St. John's day by the parishoners of the Holy Rosary Catholic church here. Two policemen were knocked down and stunned. Another man sitting in a window several hundred feet away was so badly injured that he is not expected to recover. Many others received minor injuries from the flying fragments of the bomb. The explosion occurred in a vacant lot opposite the church where the pyrotechnical part of the celebration was being held. Hundreds of people were crowded in the lot. The dead are:

Antonio Grassiffe, who was in charge of touching off the fireworks, and a negro and a negress, who were bystanders.

The explosion followed a day of festivities. The fireworks in the early part of the programme had been displayed without mishap and almost every Italian in the city was congregated in and about the lot.

Grassiffe had constructed a bomb by filling a section of gas pipe with powder and plugging up one end. He had been warned to place it on the ground before firing it but neglected to do so. The crowd surged around him as he knelt to light the fuse and before he could regain his feet the explosion occurred.

Pieces of pipe flew in all directions. A panic followed as the crowd strove to get away. The explosion blew out windows in the church and in many houses.

DETAINED IN KANSAS CITY

Hundreds of Travelers Kept There by Washouts on Railroads.

Kansas City, Mo., July 12.—With hundreds of travelers detained in Kansas City awaiting the movement of their trains, which have been delayed because of washouts due to the heavy floods prevalent in Missouri and Kansas, the railroad situation has become serious. All trains west are from one to ten hours late, while it is merely conjecture as to the arrival time of Chicago trains detained by way of St. Louis.

The Missouri river here continues to rise slowly and the Kansas river is slightly higher.

SUFFERS WITH RHEUMATISM

Justice Moody of the Federal Supreme Court Ill.

Washington, July 12.—Justice William H. Moody of the United States supreme court is reported ill with rheumatism. He was at Hot Springs, Va., for the baths, but a report from that place stated that he had left some days ago, presumably for Hot Springs, Ark.

Canary Birds in Choir.

Cincinnati, July 12.—The presence of thirty-five canary birds as a part of the choir and participating in the Sabbath morning musical programme constituted a unique and novel innovation on the regular religious services at Lincoln Park Institutional Baptist church here.

Piles

We are so certain that itching, bleeding and protruding piles can always be relieved and absolutely cured by this ointment that we positively guarantee satisfaction or money refunded.

9 cents a box at all dealers or Dr. A. W. Chase's Medicine Co., Buffalo, N. Y.
